

Type 1

The Type 1 PTO is one of the most rugged, highest capacity products available on the market today. With sheaves between the bearings, these power take-offs are designed to attain the maximum potential of their massive spherical roller bearings.

Some benefits of the WPT® Type 1 include: Potential for remote engagement, maintenance-free self-adjusting clutch, air or hydraulic actuation, heavy-duty, laminated gear tooth friction discs and easy drive belt removal.

The Type 1 PTO is intended for customers with the most demanding of applications. Typical drive belt tension capacity of these PTOs can range from two to four times that of the Type 2 PTO.

Model	SAE Housings	A	Output Shaft			C	Sheave (Customer Supplied)	
			B	Dia	Keyway		Max Dia	Max Width ¹
314H	1, 0	28 3/16 (716.0)	8 5/8 (219.1)	3.938 (100.00)	1 x 1/2 (25.4 x 12.7)	23 1/4 (590.6)	14 (355.6)	10 1/2 (266.7)
